

The Secret's Out!

Listen to why hospitals are choosing
SMARTPAK[®] for syringe-based drug delivery.

**NOW
AVAILABLE**

**CEFAZOLIN for Injection, USP
100 and 300 grams**

Use SmartPak to:

- Reduce prescription compounding time by up to 30%
- Reduce risk of contamination by performing fewer manipulations
- Increase operational efficiency
- Reduce the usual steps associated with 10 gram vials of drug
- Reduce wasted drug
- Complement commercially available pumps, tubing sets, syringes and filling systems

Shown: SmartPak's protective outer foil bag and inner bag with bulk drug

SmartPak works easily with existing syringe filling systems, pumps, syringes and tubing sets.

Boston, Massachusetts

"We prepare over 600,000 syringes per year. SmartPak allows us to create finished dosage forms in various concentrations to meet our clinical needs."

*Joseph P. Santoro, R.Ph.
Specialist, Pharmacy
Operations*

Long Beach, California

"Our staff reconstitutes over 800,000 doses of IV sterile products annually. SmartPak reduces time, manipulation and potential for contamination."

*Kevin P. Kyle
Pharmacy Buyer*

Lancaster, Pennsylvania

"Having bulk antibiotics in sterile form enables us to maintain inventory of critical products at times of short supply. It has also reduced our batch preparation time and storage space required."

*Richard D. Paoletti, MBA, RPh
Director of Pharmacy*
